SUPERVISOR, OIL AND GAS OPERATIONS:

DESIGNATION OF OPERATOR

The undersigned is, on the records of the Bureau of Land Management, holder of oil and gas lease

DISTRICT LAND OFFICE: **Salt Lake City, Utah**
SERIAL No.: **SL 071173**

and hereby designates

NAME: **TREND OIL COMPANY, operator**
ADDRESS: **412 Statler Center, 900 Wilshire Blvd.**
Los Angeles 17, California.

as his operator and agent, with full authority to act in his behalf in complying with the terms of the lease and regulations applicable thereto and on whom the supervisor or his representative may serve written or oral instructions in securing compliance with the Oil and Gas Operating Regulations with respect to (describe acreage to which this designation is applicable):

T. 17 S., R. 24 E., SLB6M
Sec. 12: All
Sec. 13: All
T. 17 S., R. 25 E., SLB6M
Sec. 7: All
Sec. 18: All**containing 2,550.80 acres, more or less, Grand County, Utah.**

It is understood that this designation of operator does not relieve the lessee of responsibility for compliance with the terms of the lease and the Oil and Gas Operating Regulations. It is also understood that this designation of operator does not constitute an assignment of any interest in the lease.

In case of default on the part of the designated operator, the lessee will make full and prompt compliance with all regulations, lease terms, or orders of the Secretary of the Interior or his representative.

The lessee agrees promptly to notify the oil and gas supervisor of any change in the designated operator.

Attention: H. W. Dougherty, President

Gentlemen:

This is to acknowledge receipt of your notice of intention to drill Well No. Bryson Canyon Unit #5, which is to be located 1613.5 feet from the south line and 468.2 feet from the east line of Section 12, Township 17 South, Range 24 East, Grand County, Utah.

The proposed location of this well does not comply with Rule C-3 (b), General Rules and Regulations and Rules of Practice and Procedure, Utah Oil and Gas Conservation Commission, nor has information been furnished for an unorthodox location as required by Rule C-3 (c) of said rules and regulations.

Before approval can be given for drilling this well, it will be necessary for you to file a new notice of intention to drill in compliance with Rule C-3 (b), or if an unorthodox location is necessary, a request for such spacing must be made as required by Rule C-3 (c).

Very truly yours,

OIL & GAS CONSERVATION COMMISSION

CLEON B. PEIGHT,
EXECUTIVE SECRETARY

Re: Lease SL 071173
Well No. 5
BRYSON CANYON UNIT

Dear Mr. Feight:

On September 28, 1960 a "Designation of Operator" and "Notice of Intention to Drill" was sent you regarding our well location No. 5, Bryson Canyon Unit.

In this application, I neglected to request an approval to drill on an unorthodox location. This unorthodox location is necessitated by the fact that the topography of the ground is one of Canyon vs High Cliffs. The topography is such that it would be impossible to drill from the Cliffs as they are almost perpendicular for 2,000' and further from a geological standpoint to move further East would be to offset an already dry hole drilled by El Paso Natural Gas Company.

Thank you for your cooperation.

Very sincerely,

TREND OIL COMPANY

Attention: H. W. Dougherty, President

Gentlemen:

This is to acknowledge receipt of your letter requesting an unorthodox location for Well No. Bryson Canyon Unit #5, which is to be located 1613.5 feet from the south line and 468.2 feet from the east line of Section 12, Township 17 South, Range 24 East, Grand County, Utah.

Please be advised that insofar as this office is concerned approval to drill said well on said unorthodox location is hereby granted under Rule C-3 (c), General Rules and Regulations and Rules of Practice and Procedure, Oil and Gas Conservation Commission, State of Utah.

This approval terminates within 90 days if the above mentioned well has not been spudded in within said period.

Very truly yours,

OIL & GAS CONSERVATION COMMISSION

Re: Location of 5 & 5A Bryson Canyon
Unit, Grand County, Utah

Dear Sir:

On September 27, 1960 a notice of intention to drill was filed in your office for Well #5, which was located 1613.5 ft. from the South line and 468.2 ft. from the East line of Section 12, T17S, R24E, Grand County, Utah.

We have found a better geological location and on October 10, 1960, we filed notice of intention to drill Well #5A which is located 811 ft. from the South line and 2577 from the East line of Section 12, T17S, R24E, Grand County, Utah.

We wish only one (1) intention to drill in this section so we would like to revoke the intention to drill well #5, and change that location to well #5A, and to have only one (1) approval to drill in this section which will be the location described in 5A Notice of Intention to Drill.

The reason for this change is that the location 5A is in unusual difficult terrain, and we have had difficulty in find access to this location, which is much more favorably located geologically. I will certainly appreciate an early approval.

Very truly yours,

TREND OIL CO.
